

PERRY'S VICTORY ON LAKE ERIE

Stupendous Pyrotechnic Spectacle Depicting This Victory a Nightly Free Feature at Ohio State Fair.

AT COLUMBUS, AUGUST 28, 29, 30, 31, SEPTEMBER 1

A Magnificent Fireworks Display Staged by a Company of Three Hundred Experts. A Production Appealing Especially to Buckeye Citizens.

PERRY'S GREAT VICTORY on Lake Erie during the war of 1812, the centennial of which glorious achievement will shortly be fittingly celebrated, will be vividly and realistically reproduced for the pleasure of State Fair visitors this year. The affair will be staged each night by the Allan Pyro-Spectacular Company, of Rochester, N. Y., and will be the most dazzling and

this without a cent of additional expense to them. The spectacle of Perry's victory is reproduced by means of many thousand yards of fine oil painted scenery, with miniature war vessels mechanically constructed and arranged so as to maneuver as though in real action. The scene depicts Put-in-Bay and vicinity, on Lake Erie, where the famous battle was fought the first and only one in which an entire British

where the fighting is fiercest the grand old flag-ship, Lawrence, can be seen leading, with her intrepid commander dashed to the rigging. So realistic is the production that one can easily imagine he can hear, even above the roar of the cannon, his famous battery that has come ringing down through the ages—"Don't give up the ship."

The grand variety of bombs, fine darts, lightning flashes and thunder

PERRY'S VICTORY ON LAKE ERIE--STATE FAIR FEATURE.

awe-inspiring scene ever witnessed in Ohio. Mr. Allan's success as a maker of pyrotechnic art has extended over nearly all the civilized world during the past twenty years. He has visited all the foreign countries, including Japan and China, and made a study of their masterpieces of fireworks. The knowledge thus gained, coupled with his own inventions, enables his company of experts to stage a collection of startling and realistic designs that never fail to please his audiences. State Fair visitors are to be given the benefit of all of it, and

squadron was defeated, put to rout and forced to surrender. The scene opens with Perry's scout boats maneuvering and passing out by picturesque Gibraltar Island, on the memorable morning of September 10, 1813. Commodore Perry's much sought and long looked-for opportunity has come, for the British Commodore with fleet of Men-of-War and veteran fighting crews is at last putting out at sea to give battle. With lightning-like action Perry gets his fighting fleet under way and soon meets up with the enemy, and

effects from high explosive shells, discharged from these miniature warships, would startle even Perry and hardly themselves could these grand old heroes but witness the reproduction of their great battle. Pleased as is always the audience with this grand miniature battle scene, a no less satisfying feature will be the gorgeous fireworks feast that will be elaborately displayed as a finale to the mammoth spectacle. This will be more extensive in size and far more effective than has ever been attempted at the State Fair.

DAILY FEATURES AT OHIO STATE FAIR

Novel Displays In Each of Its Mammoth Exhibit Buildings.

Ohio's sixty-first annual State Fair will be held at Columbus, Aug. 28-Sept. 1. The exposition will be open day and night. Demands for exhibit space have already exceeded the capacity of the handsome exposition buildings. The most complete exhibition in the state's history is assured. Novel educational features will be found in each of its 20 district departments. An elaborate amusement and entertainment program has been provided. Harness racing, band concerts and free circus acts are daily features. Allan's stupendous spectacle, "Perry's Victory on Lake Erie," will thrill the crowds each night, followed by a \$5,000 fireworks display. The Ohio State Fair is the pride of Buckeye citizens. Its purpose is to educate the people in advanced farming.

The annual exposition is held under the auspices of the Ohio State Board of Agriculture, each member of which is charged with important duties that the exhibition may be brought to a successful issue.

Following are the 1911 departmental assignments:
President—C. H. Gansan, Urbana.
Treasurer—L. W. Kilgore, London.
Horses—E. L. Lybarger, Warsaw.
Cattle—J. A. Beidler, Willoughby.
Swine—J. F. Cross, Washington.
Sheep and Poultry—Jacob Dean, Chester.
Agriculture and Horticulture—W. G. Farnsworth, Waterville.
Machinery—P. G. Ewart, East Akron.
Woman's and Art—T. E. Cromley, Ashville.
Music and Merchandise—C. W. McFarland, Mt. Cleon.

STATE FAIR NOTES.

Farm Boys' Camp located north of horse exhibit building.
Twenty free feature acts programed daily August 28, September 1.
Several hundred head of horses in one building. The largest horse show in the union.

An unsurpassed display of pure bred cattle. No less than 1,600 animals will be on exhibition.
\$11,000 in speed purses. Three races daily. Fastest half-mile track in the state.
100 picked men from the State National Guard will police the grounds.

HORSE EXHIBIT BUILDING—OHIO STATE FAIR.

A model military camp will be established, with Adjutant General Weybrecht in charge.

Collective county displays will be found in the agricultural building.

5,000 sheep and swine will be quartered in the handsome structures devoted to these displays.

Women's Free Day Monday, August 28. Children's Free Day, Friday, September 1.

Thousands of machinery displays. The latest inventions for your inspection.

Open day and night, August 28, September 1. Myriads of amusements and attractions. Countless educational displays.

The famous Experiment Station ex-

hibit. A school no citizen should fail to attend.

Lovers of music will be entertained by band concerts and piano recitals. Interesting and educational displays by Ohio's most prominent and energetic manufacturers.

SPECIAL ATTRACTIONS.
Band concerts, free circus acts, fireworks and Allen's stupendous spectacle, "Perry's Victory on Lake Erie," are the features of the night entertainment at the Ohio State Fair, Columbus, August 28-September 1. Grounds and buildings will be brilliantly illuminated. All exhibit buildings will be open. Reduced rate ad-

mission will prevail. Interurban and steam roads will run special trains, that all may avail themselves of a night visit to Ohio's Exposition.

STATE FAIR RACES.
The harness events scheduled in connection with the Ohio State Fair, Columbus, August 28-September 1, promise to bring together the best horses now campaigning over the half-mile rings. As the Exposition follows immediately after the close of the Columbus Grand Circuit Meeting, many of the horses there entered will compete with the "half-milers" for the liberal purses. The going will be fast, and, as one of the followers said "there will be some hard racing."

Bishop James J. Hartley
Presided at Opening of Catholic Convention.

RAILWAY STRIKE IS MATTER OF HISTORY

English Unions Contend They Have Won Big Victory.

London, Aug. 21.—The railway men throughout the kingdom are returning to work, and it is hoped within a few days to have the great transit system working under normal conditions.

Following the announcement that the railway managers and their employees had agreed to permit a commission to settle their difficulties, came the reassuring news that there was great hope of ending the dockers' strike at Liverpool and that the workers there shortly would resume their duties.

No rioting as a result of labor troubles was reported except at Dublin, where the police and constables came into collision with a mob which was in sympathy with striking newsboys, who were endeavoring to prevent the distribution of newspapers. Numerous persons had their heads cracked in the police and several shops were looted. The railway workers held meetings throughout the country to celebrate what they claimed to be a victory over the railway companies.

A SONG OF THE SPUD.

That which is sown toward heaven:
That which is sown toward earth:
That which is sown toward the sun:
That which is sown toward the moon:
That which is sown toward the stars:
That which is sown toward the sea:
That which is sown toward the land:
That which is sown toward the air:
That which is sown toward the fire:
That which is sown toward the water:
That which is sown toward the earth:
That which is sown toward the sun:
That which is sown toward the moon:
That which is sown toward the stars:
That which is sown toward the sea:
That which is sown toward the land:
That which is sown toward the air:
